LOSS EXPOSURE EXPERIENCE PLAN DESCRIPTION

The goal of the Loss Exposure Experience Plan (LEEP) is to help members identify risks and reduce claims. Each year a new plan must be developed that identifies a specific problem area or hazard and proposes a solution to resolve the problem area or hazard over the next year. The plan **MUST** incorporate the following components:

- Identification of potential problem areas (hazards, claims, experience, etc.)
- Proposal to resolve the identified problem areas.
- Education – to promote understanding and training to lessen the impact of the problem area.
- Funding – identifying funding resources available to accomplish the plan.
- Evaluation – track the success of implementation of the plan and be able to produce the results to GSRMA with your application for the following year's LPIP.

Although your plan should incorporate the above mentioned criteria, it should be brief and clear enough that staff is not discouraged from reading and implementing it. Please see the sample format which is attached.

The LEEP must be submitted with your completed LPIP Application. The completed LPIP application is due to our office no later than the close of business on the first Monday in March.

If you have questions in the development of the plan please feel free to contact Loss Prevention staff at (530) 934-5633 or via e-mail at lossprevention@gsrma.org.
