Your summary of benefits

Notes:

- This Summary of Benefits has been updated to comply with federal and state requirements, including applicable provisions of the recently enacted federal health care reform laws. As we receive additional guidance and clarification on the new health care reform laws from the U.S. Department of Health and Human Services, Department of Labor and Internal Revenue Service, we may be required to make additional changes to this Summary of Benefits. This Summary of Benefits, as updated, is subject to the approval of the California Department of Insurance and the California Department of Managed Health Care (as applicable).
- In addition to the benefits described in this summary, coverage may include additional benefits, depending upon the member's home state. The benefits provided in this summary are subject to federal and California laws. There are some states that require more generous benefits be provided to their residents, even if the master policy was not issued in their state. If the member's state has such requirements, we will adjust the benefits to meet the requirements.
- The family deductible and out-of-pocket maximum are embedded meaning the cost shares of one family member will be applied to the individual deductible and individual out-of-pocket maximum; in addition, amounts for all family members apply to the family deductible and family out-of-pocket maximum. No one member will pay more than the individual deductible and individual out-of-pocket maximum.
- All medical services subject to a coinsurance are also subject to the annual medical deductible.
- Annual Out-of-Pocket Maximums includes deductible, copays, and coinsurance.
- Preventive Care Services includes physical exam, preventive screenings (including screenings for cancer, HPV, diabetes, cholesterol, blood pressure, hearing and vision, immunization, health education, intervention services, HIV testing) and additional preventive care for women provided for in the guidance supported by Health Resources and Service Administration.
- For plans with an office visit copay, the copay applies to the actual office visit and additional cost shares may apply for any other service performed in the office (i.e., X-ray, lab, surgery), after any applicable deductible.
- If your plan includes an emergency room facility copay and you are directly admitted to a hospital, your emergency room facility copay is waived.
- Certain services are subject to the utilization review program. Before scheduling services, the member must make sure utilization review is obtained. If utilization review is not obtained, benefits may be reduced or not paid, according to the plan.
- Additional visits maybe authorized if medically necessary. Pre-service review must be obtained prior to receiving the additional services.
