

## **Invest in Employee Training and Compliance. Reduce Risk and Administrative Time.**

### *The Leading Tool for Managing Public Sector Training and Compliance Records*

A top-notch employee training and compliance program is one of the most important aspects of a successful agency. It is also a critical component of keeping your workforce safe and limiting liability exposure for your public entity.

With Vector Solutions Learning Management System (LMS), you can manage training more efficiently, improve employee compliance, simplify your accreditation process, and reduce administrative time for your training leaders and your staff.

### *One System to Manage Training, Compliance, Policies and Events*

#### **Centralized, Digital File Center**

Bring your filing cabinet into the 21st century and use the digital File Center to centralize and store all training and organizational resources, including SOPs, onboarding documentation, training resources, policies and more. Use the password protected, online File Center as your hub for all your files, where employees can access what they need from any connected location, anytime.

#### **Engaging Online Training**

Vector Solutions features more than 1,500 online training courses proven to educate employees and reduce liability. The online catalog features training for OSHA compliance, human resource courses, standard firefighter and ISO- required training, CAPCE EMS continued education courses, Calibre Press and other law enforcement training, driver safety, state-approved water and wastewater CEU training, back office systems, leadership courses and much more — available for employees to learn at their own pace, 24/7.
